FERRIS’ Supreme Evergreen Windbreak BARGAINS

THE FINEST TREES
WE HAVE EVER GROWN AT THE LOWEST PRICES
EVER OFFERED

Every prosperous country place needs a sheltering windbreak of Ferris’ Evergreens. What a wonderful frame they give the farmstead the year through, while they are a source of real comfort and value. Back of these thick-foliaged, solidly built trees, no biting wintry winds can find their way—they cut the fuel bill almost in two, and it’s surprising how they save feeding costs for stock raisers.

Ferris’ Evergreen Bargain E-10
Norway Spruce
We have the largest and best stock of Norway Spruce ever produced—come to the nursery and see them. This is the popular evergreen that makes the ideal windbreak—a compact, bushy grower, with branches clear to the ground; needles short and stiff, and of a deep green color. A wonderful windbreak tree—a splendid ornamental evergreen for the landscape—and a beautiful hedge. 10 25 50 100

- 2-3 ft., four times transplanted, $1.50 $2.50 $4.50 $8.00
(We have never had a better or thriftier lot of light transplanted Norway Spruce. If you wish any of these 1-2 ft. Norway Spruce by parcel post, add 25c extra for 10 trees, 50c extra for 50 trees, or 75c extra for 100 trees).

- 1-2 ft., twice transplanted, $0.60 $1.00 $1.75 $3.50

Ferris’ Evergreen Bargain E-11

100 FERRIS PINES. Heavy transplants, 2 ft. average. (50 Jack Pines—50 Red Pines).
A Complete Pine Windbreak.
The Jack Pine is the fastest growing evergreen in existence—the Red Pine a fine quick windbreak tree, and popular for ornamental planting, too. Remember—these are not seedlings, but strong, heavy trees with bushy tops and splendid roots, having been three times transplanted and three times root-pruned. They will grow for you and make you a splendid windbreak in the shortest possible time.

- 25 Pines (25 of each), 2 ft., heavy transplants, for $5.50; 100 for $10.00.

Ferris’ Evergreen Bargain E-12
White Spruce
There is probably no windbreak quite so beautiful as one of White Spruce—shimmering, graceful, with a delicate tinge of silver, while extremely dense foliage and close, compact growth make it supremely protective. It is very hardy, grows quite rapidly, and is popular everywhere, not only for shelter-belts but for distinctive landscape finish. We have a wonderful stock of White Spruce this year.

- 12-15 in., transplanted, thrifty, well rooted ........ $0.90 $1.90 $3.65 $6.85
(If you wish the 12-15 in. transplants by parcel post, add 20c for 10 trees or less, 30c for 50 trees, or 50c extra for 100 trees).

- 2-2½ ft., four times transplanted, heavy, bushy trees $3.50 $8.50 $16.00 $30.00

Ferris’ Evergreen Bargain E-13
(American Arbor-Vitae)
Tighten up your old windbreak with a row of the beautiful American Arbor-Vitae on the inside. Not only will it make a handsome background for your home and buildings, but the compact growth will form a solid wall and give you complete protection. Even with the new windbreak, we recommend the inside row of Arbor-Vitae. Ideal for trimmed hedges, too. 2-3 ft., three times transplanted, heavy, bushy trees, 10 for $4.00; 25 for $9.50; 50 for $18.00; 100 for $35.00.

A home is positively a “back number” these days if there is no perennial garden to brighten up the landscape. Perennials are the hardy flowers that come back year after year without replanting. Edging shrubbery or evergreen groups, they give a splendid finish, while in borders or gardens by themselves they are enchanting. These are extra hardy, popular sorts we are listing—varieties that everyone should have. Plant in ordinary garden soil, and as a rule the crowns should be on a level with the ground. They should get shallow cultivation and moisture when needed. For other directions and other varieties, see our large catalog, also general price list on pages 13-15.

**Delphinium**
